An enquiry by royal commission is being held in Ottawa in relation to the connection of John White M. P. with the Prince Albert colonization scheme.

Gladstone's home rule scheme is still being discussed. It is not improbable that it will be defeated at its second reading which is fixed for the 10th of May.

A terrible cyclone visited Saint Cloud and Sauk Centre, Minnesota, on Wednesday, killing fifteen people, injuring 200 and completely destroying both towns.

EDMONTON DISTRICT AGRICULTURAL ASSOCIATION.

Minutes of annual meeting held at school house, Edmonton, Saturday, March 27th, 1886; president, M. McCauley in the chair.

The minutes of the last meeting were read and on motion confirmed.

The secretary then reported as follows:

The total amount collected on account of subscriptions for the year 1885 was \$118.80, which with the balance on hand from last year and the government grant, made the total receipts \$338.10. Herewith I enclose a statement of receipts and expenditure, the details of which have been examined by the auditor and certified correct.

The exhibition was held on the 8th of October, but for some reason could hardly be considered a success, either as to the exhibits or the attendance.

An informal meeting of the directors was held on the evening of the day of the exhibition, and a committee was appointed to see about procuring better samples of grain than those on exhibition for the purpose of sending samples to Regina. I have received no report from this committee.

There is a balance of over \$50 uncollected on subscription list for 1885, most of which can be collected, which will leave about \$100 to carry forward for the present year. Respectfully submitted, W. STIFF, Sec.

On motion the report was adopted.

The president made some complimentary remarks about the manner in which the secretary had performed his duties for the past three years without remuneration, and moved that the association should testify their appreciation thereof by voting him the sum of twenty-five dollars. Carried unanimously.

It was moved by Mr. Kelly, seconded by Mr. Blake that the subscriptions be made payable at least three days prior to the day of exhibition. Lost.

A subscription list was then opened and \$82 was subscribed.

The meeting then proceeded to elect officers for the current year, which resulted in the election of the following by a unanimous vote:

President, R. McKernan; 1st Vice-President, Geo. Long; 2nd Vice-President, J. T.

Turner; Sec.-Treas., Rev. Mr. Howard; Directors, D. Ross, Jas. Kelly, G. A. Blake, M. McCauley, D. E. Noves, D. Maloney, T. G. Hutchings.

The office of president was declined by Messrs. M. McCauley, D. Ross and J. A. McDougall; that of secretary by Messrs. Stiff, McDougall and Howard, the latter, however, finally accepting. Numerous names were also proposed for directors. These honors were all acknowledged in short speeches.

It was moved by M. McCauley and seconded by Jas. Kelly that the exhibition be held this year on the second Thursday in October. Carried.

Mr. McCauley explained the terms of the expected government grant, which would be equal in amount to the amount paid in by subscription up to \$400.

Votes of thanks were then tendered to the retiring president M. McCauley, vice-president D. Ross and secretary W. Stiff.

Directors' meeting was called for the 1st Saturday in June at the school house Edmonton at 2 p. m.

The meeting then adjourned.

The following is the financial statement of the society for the term extending from January, 1885 to March 1886:

To balance on hand as per last year's report \$41.60; Less payment for freight on seed grain, \$22.30; balance to 1886, \$17.30. To total subscriptions received, \$118.80. To government grant, \$200. Total receipts \$338.10.

By paid for prizes, \$245.25; labor fixing hall, \$5.00; bill for printing, \$26.50; teaming lumber, \$2.00; judges' and directors' expenses on exhibition day, \$8.00. Total disbursements, \$286.75. Balance on hand, \$51.35.

It has been finally decided that the police who were under fire in the recent unpleasantness will receive a medal similar to that awarded the volunteers.

SUPT. GRIESBACH received a telegram on Friday afternoon directing him to remove the headquarters of G division to Fort Saskatchewan for the summer.

THE Canada Gazette contains the application for letters patent of the Edmonton cemetery company. Also the appointment of Judge Taylor in the Travis case.

A FLEET of seventeen flat-boats is ready to start to Battleford with produce as soon as the ice goes out. The boats belong to Smith & Smith, E. Richard and F. Provost.

THE C.P.R. refuses to take from the Galt company the amount of coal agreed upon, and the working force in the mines at Lethbridge has been reduced in consequence.

THE great English Society for Promoting Christian Knowledge, which takes a world-wide interest in emigration, has appointed the Rev. Canon Newton to be one of its chaplains.

GEO. OVERY returned from a month's trip to the Athabasca Landing on Wednesday. He took out a gang of men to erect a warehouse and build flat-boats at the Landing for the H. B. Co.

JOS. MACDONALD arrived from Calgary on Wednesday with freight for the H. B. Co. and other parties in town. He was unable to bring the freight across at once on account of the state of the river.

IN Parliament on April 1st, the minister of justice replying to Mr. Burpee said that Judge Travis was still performing his magisterial duties. Formal complaints had been made against him and a commission was investigating the matter.

THE election to fill the vacancy in the board of trustees of Saskatchewan school district took place on Monday last. Messrs. Pilon, Beaupre and Bergeron nominated P. Heimnck for the position. Mr. T. Lamoureux nominated Mr. Lambert but the nomination was not seconded. Mr. Heimnck was elected by acclamation.

SUNDAY and Monday last were delightful. Tuesday was cloudy with drizzle and rain in the evening. Wednesday was rainy in the forenoon and snowy in the afternoon; about two inches of snow fell during the night. Thursday was fine and the snow disappeared, leaving the roads muddy. Friday was cloudy in the forenoon and cloudy in the afternoon. Saturday opened cloudy and some snow fell during the forenoon.

THE Calgary Herald alludes to the desirability of a bridge over the Bow river at Calgary. Edmonton is almost as deeply interested in this proposed bridge as Calgary and any moral support required may be depended upon from this end. The financial support will come in when the bridge is completed as this on Edmonton freight will probably be its chief source of revenue. It would be better, however, for both Calgary and Edmonton to have a free bridge.

ICE opened at the lower ferry on Monday and at Ross' point on Wednesday. Horses crossed the ice on Monday and foot passengers crossed until Friday. A buckboard was drawn across by hand on Wednesday evening. Boats were used for crossing in the open spaces on Wednesday. On Thursday the river cleared below town. On Friday the ice in front of town went out. On Saturday morning the ice at the point below the fort was still in its place, of course keeping back all above while the river below was all clear.

THE Regina Leader and Winnipeg Manitoba contain advertisements calling for tenders for a timber berth of eight square miles on the south side of the North Saskatchewan river in the district of Alberta. The tenders will be received by the department of the interior at Ottawa up to May 3rd. Information in regard to the berth may be obtained at the department in Ottawa or the crown timber offices in Edmonton or Calgary. This method of advertising is a specimen of the highly original and remarkable manner in which the business of the interior department is carried on under the able supervision of Mr. Burgess.

ON Monday evening last a young man named J. Andrew, who resides with R. Brehner on the Stoney plain was brought in by J. McPherson and Mr. Brehner and placed in care of the police, having become dangerously insane. Mr. Brehner had been in town for a few days, leaving Andrew alone. On Sunday McPherson and another man who lived close by visited Brehner's place and noticed that he acted and spoke strangely. On Monday McPherson induced Andrew to come to Edmonton with him in a wagon. At Long lake they stopped at W. Macdonald's house, and were there joined by Brehner who was on his way home. While he was there Andrew developed dangerous symptoms, and struck Brehner. He had to be tied in order to be brought to town. The unfortunate man is only a year or two out from Scotland. It is said that some years ago he suffered from a similar attack.

A TRADER from Jasper House named Paulette was in town last week purchasing goods for the spring fur trade. He sold his winter trade of fur to the H. B. Co. at Lac Ste. Anne. There was a good fur catch last winter. Very little snow fell during the winter and Paulette found no snow on the way down until this side of the McLeod river.

STAGE arrived on Monday evening. The wagon was left on the south side and the mail bags carried across. The passengers walked across; they were Mrs. F. W. H. Butler, Judge Travis and Mr. Costigan, crown prosecutor for the Alberta district court, who expected to have to deal with the cases of the Indian prisoners who were recently released from police custody.

DEBENTURES.

Attention is respectfully directed to the notice of voting on the issue of debentures to the amount of \$1,000 by the Edmonton school district for the purchase of a school site. With all public corporations on the continent of America the rule appears to be to borrow as long as the borrowing power exists and then—the deluge. But because this is the rule it by no means follows that it is a good one. The reason it is the rule is that when a proposition is made to borrow money upon the security of a corporation the taxpayer naturally accedes to the proposal on the grounds, 1st. That he desires to escape high taxation as long as possible and therefore would rather borrow than pay as he goes along, expecting to be better able to pay at some future time. 2nd. That as he may leave the place there is a possibility of his escaping payment altogether. 3rd. That he is always kindly willing to allow later arrivals to assist in paying for improvements that he the party of the first part has derived the chief benefit from. 4th. That the corporation can borrow money at a lower rate than he can and that he makes, clear, the amount of the difference. And yet by acting on these four reasons which look so logical on paper a majority of the public corporations of the continent find themselves practically bankrupt, or so hampered with debt contracted in times gone by for which no adequate value remains that although their taxes are unbearably heavy they cannot command sufficient funds with which to properly carry on business and improvements. Of course a corporation does not always become bankrupt or even hard up because it contracts a large debt. The subsequent rapid increase of business and population may lighten the load as fast as it can be increased. This is to a very great extent the case with Toronto, Chicago, St. Paul, Minneapolis and Winnipeg, but it is not the case with any other corporation unless similarly circumstanced. For instance, it is not the case with Emerson, Portage la Prairie, or any municipal corporation in Manitoba outside of Winnipeg. Therefore, unless we can depend upon the same good fortune as Winnipeg the example of that burgh is not a safe one to follow. The safe rule for corporations as well as individuals is Never borrow money if you can get along without doing so. Because, 1st. The process of borrowing and repayment, especially by debenture, entails considerable expense, which is dead loss. 2nd. The saying, Come easy go easy, applies to borrowed money; it is very subject to waste. 3rd. It hampers future operations. 4th. It impairs future credit. The question for the electors of the school district is, Is this loan actually necessary for the proper carrying on of school work here. If it is it must be contracted. If it is not an actual necessity, no argument of present expediency should prevail upon the electors to allow it. With a total assessment of \$375,000, of which at least \$300,000 must be available, and which if assessed at the full legal rate would yield a yearly revenue of \$9,000 it cannot be necessary to borrow the amount mentioned in order to discharge existing obligations or carry on the school. If the ratepayers decide to put a thousand dollar plaster upon the district rather than pay the money now, when certainly they are as well able to pay as they ever were or perhaps ever will be, they will be taking a very unbusiness-like, not to say foolish course. If Edmonton aspires, as it certainly should, to be an educational centre for this north-western part of the North-West, to mortgage the school district at this early day would be to take the first step in the opposite direction. It is better to save our credit for some future occasion when it will stand higher than it does now and when circumstances call for the erection of large permanent buildings to be an ornament to our town and an encouragement to education; such as it is neither possible nor advisable to erect now, but which will be required and can be built at no distant date if the affairs of the district as it exists at present are conducted with a due regard to efficiency and economy.

The spring circular of the Winnipeg and Western Transportation Company declares the company's determination to do the carrying trade of the Saskatchewan valley if low rates and rapid transit are any object. The freight rate from Winnipeg to Edmonton is: Merchandise, \$2.90 per 100, flour \$1.80 per sack, bacon \$2.25 per 100. Passenger rates, \$30 for cabin and \$20 for deck, each way. The rates to Pitt, Victoria and Ft. Saskatchewan are considerably higher, while those to Battleford, Carlton, Prince Albert and all other points below are, \$2.50 for merchandise, \$1.75 for flour and \$2.10 for bacon. Passenger rates from Ft. Saskatchewan, Victoria and Pitt are the same as those from Edmonton. From Battleford and Carlton there is a reduction of \$10 and from Prince Albert a reduction of \$15 on cabin passage. Furniture, gunpowder, and heavy machinery, 50 per cent. more than merchandise rates. Special rates on car lots of heavy goods can be made. Arrangements can be made for easy terms of payment. These rates put Edmonton almost on an equality with Calgary in the matter of freight.

LARGE quantities of flour and other H. B. freight is on the way in from Calgary for the Athabasca and Mackenzie river districts. The reason this freight is being brought in by way of Calgary instead of by Saskatchewan steamer is that it is desirable that it should leave Athabasca Landing about the time goods by the Saskatchewan steamer leave Winnipeg; by which route most of the Edmonton goods will come.

COMPLIMENTARY DINNER.

The complimentary dinner to Dr. Wilson, M. N. W. C. for this district on Wednesday evening last was very well attended considering the disagreeable weather prevailing. The spread, which was provided by C. Paquet, was served in Kelly's hall and was first-class in every particular. Tables were arranged in the hall in the form of a horse shoe. The chairman, D. Ross, occupied a place at the centre or head of the table, with the guest of the evening on his right hand; the vice-chairman, J. A. McDougall, occupied one end and the secretary of the managing committee J. A. Petrie the other. Dinner was served at 8:30. Letters of regret at unavoidable absence were read from Judge Travis, W. Anderson Indian Agent, Supt. Griesbach and others. The toasts were drunk in tea, coffee and cold water. The chairman proposed The Queen; The Governor-General; The Lieutenant-Governor. After these had been duly honored the chairman read an address of welcome to Dr. Wilson and proposed The Guest of the Evening.

Dr. Wilson on rising was greeted with vigorous applause. After expressing the pleasure that such a gathering gave him, he said that he would not on the present occasion give an account of his doings in the North-West Council but would leave that for a public meeting to be held in the future when free questions and criticisms would be possible. He would confine his attention to the delegation sent to Ottawa by the North-West Council and of which he was a member. He criticized the BULLETIN for its imperfect report of the bill of rights with which the delegation was entrusted; showed why a delegation was needed; described the men composing it; and went over the items of the bill of rights in detail, dwelling especially on those that are of interest to this constituency. He explained why the government was unwilling to abolish the wood and hay taxes or to reduce the price of pre-emptions, but mentioned that the regulations in regard to these matters would be modified. Promises had been made in regard to most other concessions asked for. The trails from Edmonton to Calgary, St. Albert and Ft. Saskatchewan will be surveyed and the outstanding claims of half-breeds for scrip will be settled during the summer; \$15,000 has been appropriated for the improvement of the North Saskatchewan river; the advocates of the Peace river road were recommended to have their case ready to lay before the minister of the interior when he visits Edmonton during the summer; the Torrens system of registering land is to be extended to the North-West. In speaking of the parliamentary representation to be accorded to the Territories, he claimed that it was the best policy for the public men of this country to keep free from the ties of party politics in the east and to unite for the advancement of the interests of the North-West. He sat down after a speech of about forty minutes amid applause.

The Army and Navy was responded to by Sgt. Geldert of the police; The Dominion Parliament and North-West Council, by Dr. Wilson, who alluded in complimentary terms to the lieutenant-governor and the members of the Council; The Learned Professions, by Rev. Mr. Baird, Mr. Costigan, of Calgary, Dr. Munro and Rev. Mr. Howard. The vice-chairman proposed: The Mercantile Interests, responded to by T. B. Henderson; The Civil Service, by Messrs. Gauvreau, Johnston and McPhillips; The Agricultural Interests, by Messrs. McCauley and Maloney; The Mechanical Interests, by Messrs. J. and E. Looby; The Educational Interests, by Rev. Mr. Howard, M. McCauley and Rev. Mr. Baird; The Old Timers, by W. Leslie Wood, J. Gibbons and D. E. Noyes; The New Comers, by P. Daly; The Ladies, by J. A. Petrie; and The Press, by H. T. McPhillips. Between the toasts, Mr. Bellevue sang a French song, F. J. Trimble, The Warrior Bold, and the chairman, The White Squall. The healths of the chairman, the vice-chairman and the host were drunk and duly acknowledged, and the exercises were brought to a close at 12:30 a.m. by the singing of God Save the Queen.

THE extremely disagreeable weather on Tuesday evening interfered with the attendance at Mr. Baird's lecture in the Presbyterian church on Student Life in a German City, but there was a fair-sized audience present. Mr. Blake opened with a German song. Mr. Baird spoke of Leipzig as the city in which his student days had been passed, its commercial importance, its appearance, its university with 3,300 students and 165 professors, the interest taken by the professors in foreign students, the number of Canadians who were there, the life of the students, their studies, their clubs and the welcome they give to outsiders. The lecture closed with an estimate of the value, apart from the benefits of travel, of a session spent in a German university. Sgt. Bagley and constable Fisher played an instrumental duet and were encored. Mr. Blake sang another song, and the meeting closed with God Save the Queen. The lecture netted some \$35 for the building fund of the church.
